

I'm Hafedh Dhouib, a junior developer from Tunisia, I'm specialized in web development.

I'm interested in working in Italy.

I have participated in the Program for immigration Formazione Per L'Italia, last year:  
<https://www.formazioneperlitalia.com/>

Where I studied:

- Italian: 100 hours
- Orientation: 10 hours
- Civics educations: 20 hours
- Worker safety: 20 hours
- Vocational training: 50 hours

I've passed the Italian exams « Level A1 » and I've obtained my certification.

The Italian government reserved quota to our program for the Nulla Osta, so I don't have a problem to obtain the Nulla Osta as I obtained my certificate.

Can you give me a hand, please?
